Sounds good to me. I'll leave it up to you two to talk it out. She's in training right now, but in the office.

Great.

Amy left a voice message yesterday on the Salton Sea, but I have not been able to get ahold of her today yet. I'll let her know the time for the Salton Sea will only be about 15 minutes – hopefully it can be focused on a more factual overview and some areas of interest you all have on the topic, rather than a policy discussion on next steps or anything like that.

That all sounds good to me. I'll share with others.

Did you talk with Amy Zimpfer about the Salton Sea item? She was thinking of calling you to hear what would be the most productive conversation next week. I'm completely on-board with replacing part of that time with a border discussion.

Matt,

Thanks for the agenda. This looks good. I would be happy to give an overview on our AQPS activities in the first session as well.

For the SIP submittal item, I think looking at a SIP that was recently approved as an example would be good to walk through as well as maybe one that requires some back and forth to understand what goes on with that process as well.

Also, I understand there may be some sensitivity with the Salton Sea topic. Instead of 30 minutes on that topic, maybe we could do 15 minutes and add in something on another topic – maybe Border Issues?

Dave,

Here is the draft agenda for Aug. 8 that I've been organizing around. If you have any further thoughts, please let me know. As you can see, we'd really like an update from you on your focus areas and the Division's priorities as well in that first session.

I'm finalizing the list of attendees for each session and I'll send you that next week.

Thank you!

Matt

Draft Agenda

Time	Topic	Attendees
10:00 – 10:15	Arrive	
10:15 – 11:00	Overview of Region 9 (orientation for Dave in his new position); Updates from AQPSD at CARB	
11:00 – 12:00	Overview of acting on SIP submittals - Any particular CARB submittals to highlight?	
12:00 – 1:00	Lunch	
1:00 – 1:45	Air toxics emissions/risk	
1:45 – 2:30	Wildfires and prescribed fires – monitoring and emergency response	
2:30 – 3:00	Salton Sea
